We are committed to providing the highest quality products and services exceeding our client's expectations. We shall continue to expand in equipment and facilities, and engage in training and certification programs to further serve customers with utmost excellence and professionalism

As we carry out our mission, we shall be guided by values of integrity, reliability, commitment, and collaboration.

Our commitment to service is to:

*Delivering Results,
Exceeding Expectations*

SERVICES WE OFFER:

HOME AUTOMATION SYSTEM |

LIGHTING CONTROL |

BUILDING MANAGEMENT SYSTEM |

PUBLIC ADDRESS SYSTEM & VOICE EVACUATION |

ACCESS CONTROL SYSTEM | CCTV |

ELV WORKS |

ELECTRICAL WORKS |

BUILDING MANAGEMENT SYSTEM

DamaTech is pioneering installer and solution provider in building and energy management system. we provide total solution for commercial, institutional and other various portfolios.

DamaTech Solutions has been designing Integrated Building Management System involving complex integrations with various MEP services (HVAC related chillers, pumps, terminal units, VFDs, Electrical related Meters, Diesel Generators, essential breakers, Water Management System,etc).

The Building Management is a specialized field that demands expertise in its design, engineering and deployment methods and the treatment we accord to your construction will be distinctive based on the asset's purpose and its make-up.

A building management system (BMS), otherwise known as a building automation system (BAS), is a computer-based control system installed in buildings that controls and monitors the building's mechanical and electrical equipment such as ventilation, lighting, power systems, fire systems, and security systems.

HOME AUTOMATION SYSTEM

DamaTech Solutions involves in selection, Design & Supply, Installation & Integration in Smart Home System.

Home automation system will monitor and/or control home attributes such as lighting, climate, entertainment systems, and appliances

- **Smart Homes**

Enhance the uniqueness of your living spaces with smart devices which meet the essential requirements of comfort, safety and energy efficiency and let you to adapt your living environment to suit your mood.

LIGHTING CONTROL SYSTEM

Smart lighting systems are changing the way lights behave. Today, luminaires are smart, intelligent, and controllable to make lights glow with user-preferred intensities and color. People prefer to set lights to suit their emotional state and improve the surrounding ambiance. Therefore, smart lighting control systems are now widely used in indoor and outdoor lighting setup of residential, commercial, and industrial spaces.

These IoT light control systems allow wireless controlling of luminaires through Bluetooth devices, delivering ease of use and convenience. They also maximize energy savings, satisfy building codes, and comply with green building and energy conservation programs

ACCESS CONTROL & CCTV

Access Control System Solution

We can design and provide solution for Access controls system which allows or restrict people to enter areas where security is being implemented.

Closed Circuit Television Systems Solution

We provide design and installation of CCTV security systems, we have everything you need to customize your business security.

PUBLIC ADDRESS & AUDIO-VISUAL SYSTEM

Public address system is an electronic sound amplification and distribution system. It works with the combination of a microphone, amplifier and loudspeakers, it will facilitate the person / recorded medium will address to large public / area, like announcements of movements at large area or on the Bus, Rail and Airport / Seaport terminals.

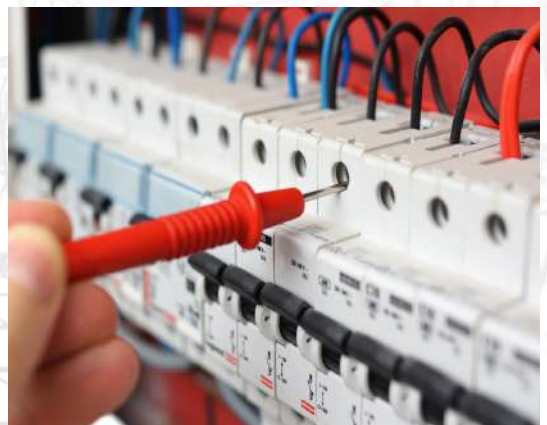

Public address system is very important and compulsory for the small and large venues like school auditoriums, Malls, train / metro / airport / bus terminals. In simple terms Public address system is required to make announcements in public, institutional and commercial buildings.

ELECTRICAL WORKS & ELV WORKS

Electrical Design, Installation and Fit Out
Power for Commercial and Industrial Projects
New Constructions and Termination
Power & Control Wiring for Processing
Cable Section Replacement or Faulty Circuits

PROJECT MANAGEMENT

Project Management discipline, expertise, and successful execution leads to project success. Our demand for having the best trained Project Managers and contractor management services in the business equates to well-run project and maintenance sites for our clients.

Our goal is to have a seat at your “planning table”—adding valuable and insight to the entire construction process at this critical time.

With our partnering process, and project or main-tenancy experts in the Electrical, Instrumentation, & Controls Arenas, we at DamaTech Automation System welcome the chance to offer our expertise with project planning, design arrangements, layout, pre-engineering, control Architecture, cost estimating, and project management services.

STRATEGIC PARTNERS

DamaTech maintains partnerships with the leading brands for ELV system across virtually all business functions to ensure we deliver the right solution for our customers. Our Strategic Partner program seeks to forge alliances with leading companies in the following areas:

- Value-added resale of their products
- Implementation and support

We continuously evaluate and add members to our list of partners to deliver the most effective and advanced solutions to our customers.

OTHER PRODUCTS

- Wiring Accessories (Switches, Convenience Outlets, Dimmers)
- Control & Signaling Units
- Lighting for Residential, Commercial and Industrial Application
- Low Voltage Apparatus
- Low/Medium/High Voltage Switchgears
- Low/Medium/High Voltage Transformer
- Low/Medium/High Voltage Capacitor Banks
- Substation Equipments
- Lightning Arresters
- Grounding System and Equipment
- Motor Control Centers (MCC)
- Power and Distribution Panels
- Manual & Automatic Transfer Switches
- Busbars and Wire Gutters
- Cable Trays and Wire ways
- Preventive Maintenance of Transformer, Switchgears and other Electrical Equipment
